Subject: RE: Backlog priority

Thanks. We will work with your recommendation as we decide the list of cases to assign to the team members.

Subject: Backlog priority

— Following up our discussion on prioritizing backlog cases. After everyone deals with deep dive or hair on fire cases, CCD will continue to work with RAD to identify ways to prioritize cases. CCD just wanted to add that for cases where there are no other identified priorities (hopefully we will get there at some point) we would suggest that the cases with the oldest data review memo would become a higher priority. As often happens with competing priorities some older cases keep being delayed. We can talk more about and/or adopt this idea at future backlog meetings.
